The Questions that need to be asked?

Tuesday 16th August 2016

1. If the media is owned by the Jews in the terms of 96% and matters of sheer public interest and National Security will not be published and thus scrutinised what have we got?
2. Since when did it become LAW that an alive man cannot press a claim against another man within her majesties courts and if he cannot do so, what have we got?
3. If the media will not publish the truth and there are no laws against man pressing claim against another man but yet he is prevented, who or what is preventing it and for what reason?
4. During years of research I have discovered that there are laws that are for us and different laws for them! Them being the operative word... who are them?
5. Them are a society of the groomed and banded, by a secret Oath... one which protects all its brothers, above all else, in any circumstances, especially where conflict arises!
6. A member of the bar has a 1st duty and that 1st duty is to the court, above all else, even where conflict arises, in fact especially where conflict arises.
7. Police. Judges and solicitors, the bar and government officials are in the main, **Freemasons** and this organisation, now is being branded by many as a **'terrorist organisation'**, uses its oath in a ruthless fashion against those it deems a threat to their satanic worshipping existence.
8. It need not be this way and our forefathers wrote protections for the common man to safeguard against such evil in the form of a treaty. The Magna Carta 1215. Jury protections.
9. Personage and Barratry have been used upon the alive in a mass probate fraud by these crooks, to enslave and to force upon them, against their will, all manner of indignities with the sole reason being to extort money, land and property and or to silence whistle-blowers exposure!
10. TREASON LAWS are there to protect, so why are they never used or enacted upon? When was the last person convicted of treason? You need not wonder why, the **Freemasons** are the **'terrorist protection racket'** for those in their club.
11. **THEY and they alone** are running the country, the courts and the Police etc. The evidence is all there and it is they, little by little, whom have stolen our rights and common laws to protect us, using its secret oaths of allegiance to each other above all other oaths that are to her majesties courts and or public office duties. **A CONFLICT of IMMENSE PROPORTIONS.**
12. In ANSWER, you have a TYRANNY, a dictatorship in secret behind closed doors! **OUTLAWS!** Running amok, doing whatever they please in all manner of criminal activities that cannot be brought to heal **because it is they whom have subverted the laws of the land** into their own STATUTE Acts, where the manipulation of administrative maritime courts of convenience to them, is so easy, to offer the protection afforded to them and them alone.
13. Unlucky for some - OUR TREATY from our forefathers, in article 61 stated that when such TYRANNY descends upon you, as it obviously NOW has, YOU, have a duty to react **& be a hindrance and a rebel, and fight to end the corruption or injustice within the system, it was law that he could do this, and he was actually obeying the law by doing it,** because it is the peoples duty to fight corruption and uphold the law.

Wake up, see things for the way they truly are and stand clearly on the side of the fence that you are on, so that others can identify you.

What I stand under, by my own consent

Nottingham Sunday the 31st of July 2016.

For all those that missed the meeting it was a new point in British history I believe.

It was confirmed by all present that THE RULE OF LAW! Must be returned to this country. There were eminent speakers at the meeting with a wealth of knowledge who gave their opinions on the criminal cartels operating today in Britain.

It was agreed that we will no longer stand by while criminal elements in the government, judiciary and financial institutions pillage and rape our people with impunity.

This was what we discussed at the meeting and I believe the time is now right and our aims achievable when we all come together as one.

THE Rule of Law declares, **that ALL are equal before the Law without fear or favour** and that the achievement of justice and fairness must always be of supreme importance.

Rule of Law will **always seek out the provable truth** wherever it takes us.

Rule of Law recognises that Magna Carta 1215 (The Great Charter), along with the Declaration of Right 1689, as being the lawful foundation of the British Constitution and – as they are both peace treaties between the monarch and his people - **they take complete precedence over any Statutes, Acts or Regulations** passed by Parliament.

Rule of Law therefore **demand**s:

- That **Trial by Jury** Common Law jurisdiction applies to ALL aspects of the British judicial system – this includes the restoration of Grand Juries to replace the Magistrates Courts and an end to County and Family Courts where judges have **unlawfully taken it upon themselves to act as both judge and jury**.
- That Trial by Jury Common Law jurisdiction is supreme and is the only jurisdiction allowed in the United Kingdom.
- That Juries be made fully aware of their power to use the proven process of Annulment by Jury to strike off any **unjust Statutes, Acts or Regulations** passed by Parliament - **the ultimate protection against the imposition of tyranny**.
- That the Middle Temple, the Law Society and the British legal system as a whole be made more **accountable**, transparent and completely free from the criminal influences of the City of London and its private banking and financial system.
- That properties, monies and other forfeitures carried out by Courts using fraudulent means on behalf of the private banking and financial sector be returned with immediate effect to their rightful owners.
- An immediate end to the City of London's special privileges, including the position of City Remembrancer in the House of Commons.
- The Common Law Prohibition of all forms of usury.
- The immediate restoration of the Bradbury Pound so that the British people benefit from debt-free and interest-free money that is created and issued by HM Treasury using a network of local and regional public banks – money that is solely based on the United Kingdom's wealth and potential so as to provide the liquidity needed for a happy, secure and prosperous nation. PTO

- That the Bank of England ends, with immediate effect, its relationship with the Bank for International Settlements and its fraudulent central banking system.
- That the Bank of England be fully absorbed into HM Treasury and thereby come under the full control of our elected Parliament.
- That Glass Steagall be implemented with immediate effect – that is the separation of high street banking from the riskier investment banking.
- An immediate investigation into how people’s mortgages are fraudulently created by the banking and financial industry.
- An immediate end to Student Fees and Student Debt courtesy of the reintroduction debt-free Bradbury Pound.
- That political parties per se be discouraged in favour of having elected independent Members of Parliament. Also an ending to the so-called ‘whipping system’ whereby Members of Parliament are bullied and coerced into voting in a particular way against their better judgement and conscience.
- A ban on all organised ‘behind the scenes’ political lobbying by large and powerful vested interests.
- The immediate shutting down of the leadership training charity Common Purpose along with other bogus charities which are unlawfully and treasonously undermining the well-being of the United Kingdom as a whole.
- That the Police Constabularies in the United Kingdom act, at all times, under the Common Law and that all serving constables are knowledgeable and fully conversant with the duties expected of them under the Common Law and the over-riding precedence of the Common Law.
- That using the Common Law, an immediate withdrawal from the European Union is achieved by repealing the European Communities Act of 1972 which was signed by the use of provable fraud and deception.
- An immediate public and thorough Common Law investigation into Establishment-led and institutional child abuse and paedophile rings.
- An immediate end to the criminal process of Globalization by the secretive, unelected and unaccountable international banking and financial elite.

And an end to the conflict of OATHS used, where a freemason ‘must’ declare his Freemason oath and that if it conflicts with his public duties, RETIRE and step down. i; man mike@rake.net

Dear Mr Clarke

Re:Ann Clarke

I have been asked on behalf of the High Court to give you an update on the above case.

In order to undertake the enquiry (as per Mr Justice Peter Jackson's order of 9 May 2016) the Official Solicitor has to ascertain the extent to which the Official Solicitor can safely incur costs as he cannot commit funds from his budget unless satisfied that there is a good chance of successful recovery. He has made enquiries with two solicitor's firms to establish the extent of the debt they have secured on the property owned by Mrs Clarke. Once he has satisfactory replies he will then be able to look at instructing a specialist legal firm to undertake the enquiry.

Yours sincerely

Heather Feast
