Dear Sirs

**Today we file an additional complaint of
trespass of IDENTITY THEFT, leading to
FRAUD on THE LIVING and in the court.**

THE crime of **PERSONAGE & BARRATRY**
has been committed wholesale by the
BAR ASSOCIATION & has been
sanctioned by the courts.

This country has been criminally
mismanaged and misrepresented in
gross breach of trust, and in violation of
solemn treaties and commercial service contracts.

This has resulted, among other things, in the practice of **personage and barratry** in courts on a
worldwide basis.

Personage is essentially a crime of identity theft.

A living man or woman is deliberately presumed to be some form of incorporated entity instead and
their lawful Trade Name is trespassed upon and mischaracterized to secure this end.

An example would be a living man named "James Clarence Penny" being deliberately mistaken as a C-
Corporation doing business as "JC PENNY", or a public transmitting utility doing business as "JAMES C.
PENNY" or a public estate trust doing business as "JAMES CLARENCE PENNY" or a co-operative doing
business as "JAS C. PENNY" and so on and on.

Barratry is the associated crime of bringing charges against **living people** under the false presumption
that they are in fact legal fiction entities.

The Bar Association has practiced both personage and barratry against the people since at least 1933.
The Prima Facie evidence for this stands upon the court records of every maritime and admiralty court
allowed to dry-dock in the country.

Those entrusted to be the guardians of The Law and the purveyors of Justice have instead acted as
the ring-leaders and perpetrators of a vast systemic and syndicated multi-generational crime spree,
both here and abroad.

**Let us observe that the only possible reason that any sane assemblage of people support the existence
of courts and lawyers is to ensure that their physical safety is protected, that their property rights are
respected, and that a fair means of peacefully arbitrating disputes is made readily available.**

By undermining the Public Law and subverting the Cause of Justice, by openly practicing personage
and barratry, by creating and then plundering public trusts and other legal fictions purposefully named
after living persons, the members of the Bar Association have also undermined their own purported
reason to exist and dishonored their profession.

It is **high time** the POLICE did their economic duty and ACT against the crimes being reported instead
or referring the complainants back to the criminals being reported.

Since 2012 I have claimed my position in writings and in court as a man, that the courts have wilfully ignored committing FRAUD against me and my mother.

PERSONAGE & BARRATRY are crimes of national IDENTITY THEFT, for which, if the POLICE do not act have become an ACCESSORY to sanction those crimes thereby becoming a party to tyranny.

Man
